

Jacob Frank

Creative Developer & Designer

Work Experience

Creative Technologist Intern | B-Reel NYC

May - August 2017

B-Reel is an international creative agency and my internship focused on front-end development and design. Contributed to various projects, including clients LG and American Express. Gained experience collaborating with a development and design team.

Web Developer | Student Employment Office at RIT

January 2016 - Present

Responsible for maintaining the student employment office website with up-to-date postings and information. Created build system using the Gulp.js. Currently redesigning entire website.

Freelance Developer/Designer | Hawkes Media Group

January 2017

Design and development of a new website to showcase the media company's work and clients.

Extracurriculars

Manager, WebDev, Designer | 'Thought at Work' Design Conference

September 2015 - Present

Project Manager, lead developer and design team member of the website for a 3-day conference at RIT. Managed the design and development teams of 15 students to create registration, travel-related pages, speaker and panel bios and more, meeting deadlines over a 6 month period.

Web Master | New Media Club at RIT

September 2015 - Present

A club for New Media Design majors and those interested in design. As Web Master I manage the club's website and participate in planning meetings.
